Venezuela's ex-president is reported better. Must have taken some Castro oil.

Attendance at church to-morrow does not accurately gauge one's religious desires; but we hope this statement will not keep any from church.

It remains to be seen if Elroy Kent is ever hanged for the crime of which he was found guilty in Rutland county court to-day. Such a course is not probable.

Repeated defeat of his pet measures give Governor Hughes multiple opportunity to demonstrate his own statement that he is not a quitter, although the public knows it.

The House heeded the counsel of President Taft and made short work of passing a revised tariff bill. The progress of the measure is likely to be slower through the Senate.

One of the distinctions of the late Ethan Allen Hitchcock, former secretary of the interior, was his claim to direct descent from the famous Vermont whose name he bore. And he seems to have possessed much of the fighting qualities of his illustrious forbear, as his relentless prosecution of the land fraud cases during his tenure of office indicated. He was working in the name of right and the nation, while the Vermonters declared himself at the gate of Ticonderoga as demanding the surrender of the fortress in the name of the great Jehovah and the Continental Congress; thus were offices similar, too.

If enthusiastic "rooting" will do any good, then the Washington team of the American base ball league should end better than in last place this season, since President Taft has got his base ball pass and promises to use it. President Taft was almost right in his belief that Washington was not in the American league, for Washington has been hanging on to the last place in the standing by merely a shred, threatening to drop off into complete oblivion at any time. Presidents as a rule are too busy to follow base ball or too occupied with other diversions. Roosevelt was never too busy for sports, but he didn't take to base ball as readily as to tennis. President Taft is said to be fairly enthusiastic over the national game, which assures him of quite a sizeable support in the great family of base ball fans if he ever comes up for re-election.

### BARRE'S NEW MUSICAL ORGANIZATION.

As the result of the energy and persistence of a few public-spirited citizens, Barre now has a band to which the people can refer with pardonable pride as "our band." It has been many years since Barre had its own brass band and the community has felt the lack on many frequent occasions when music should take a prominent part, and as a result Barre had to go without or else arrange its affairs so as not to conflict with other engagements of the available hands in this vicinity. Now, however, we have a band and a creditable one besides, as the complimentary concert of last evening indicated, and it may be expected to fill all the requirements of an organization of this sort. The hearty co-operation of the citizens and the support of the city officials will be needed to lead encouragement to the project and keep the organization intact through its early periods. The Times hopes and expects that both these supports will be accorded the Barre Citizens' Band.

Last summer the city council appropriated \$450 for public band concerts in the city park, and the council will very likely heed the wishes of the public and appropriate for a similar arrangement the coming season, with the Barre band engaged to give the concerts instead of the Montpelier Military Band as formerly, while still further support may be confidently looked forward to. The first public appearance of the new organization was very satisfactory, indeed, and the quality of the music was excellent. We may rest assured that we shall be getting our money's worth, provided the city appropriates even as generously as does Montpelier for the support of its band.

The Easter sale and fish dinner held at the vestry of the Universalist church yesterday afternoon and last evening under the auspices of the Ladies' Union was an entire success. Both parts of the entertainment were well patronized, over 100 people enjoying the dinner and most of the articles offered for sale were sold and some duplicate orders were received. The vestry was prettily decorated and the booth were also tastefully trimmed. The candy booth was in charge of Misses Blanche Bradford and Nellie Blanchard; the apron booth, Mrs. Agnes Bradford and Mrs. Aurora Robinson; food booth, Mrs. John Wallace and Mrs. Etta Leonard. The dinner was in charge of Mrs. C. E. Kinney. The menu included the following: baked staid, mashed potatoes, jelly, pickles, egg salad, orange float, whipped cream cake, coffee and tea. At the conclusion of the dinner a musical and literary program was given. The numbers were a piano solo by Mrs. John Eastman, a vocal solo by Mrs. C. R. Scott, piano duet by Misses Grace Dillon and Mary Wells, and reading by Mrs. Stella Averill.

Bloomfield as pastor Tuesday and Wednesday, June 1 and 2. The Rev. L. P. Reed of Hyde Park, Mass., Mr. Bloomfield's predecessor, will deliver the installation sermon.

Before Referee I. C. Moody of Waterbury yesterday in the office of John H. Sentie an adjourned hearing was given of the case of Noy vs. the S. M. Cameron estate, in which the right to sell certain milking machines is involved. J. H. Senter of Montpelier and V. A. Bulard of Burlington appeared for the plaintiff and R. M. Harvey for the defendant estate.

Several directors of the Orange County Telephone company met yesterday at the Montpelier house for the purpose of organizing the Intercounty Telephone company. Owing to the absence of one or two of the directors, the organization could not be made, as the charter of the Orange county company requires that all the directors of the company shall vote on such propositions. The Orange county company is intending soon to close its exchange at Buxbury and transfer the business to Brookfield.

## THE TEST OF TIME

"How long have they been in business?" An answer to this question is necessary to fix the standing of any business house. Before any concern can claim high rank in the business world, its stability must be proven by **The Test of Time**. And the longer it has been in business with an honorable record, the higher it is rated by public opinion.

In the banking world, no less than in other lines of business, time must test the strength of any institution. It takes time to show whether the loans of a bank are good, whether its management is conservative, whether its policy is safe, whether it can combine these important features, and be progressive.

This bank has a record of **twenty-four years'** successful business, **twenty-four years** of satisfactory service to the people, and with one year more from the 13th day of April this institution will have completed a **Quarter of a Century** of business, **Being the Oldest Bank for Savings** in the City of Barre, and one of the most important factors in the early development of the granite industry, as well as in the growth and development of the City of Barre, during this entire period.

With nearly 4,500 depositors, it still endeavors to treat its patrons with the same prompt attention and courtesy, and invites all or a portion of your banking business.

Deposits made on or before April 6th will draw interest from April 1st, free of taxes under \$2,000, in accordance with the state law of Vermont.

Resources \$1,300,000.00 4 Per Cent Paid on Savings Deposits

## Easy-Working Paint

Easy Working Paint is Economical Paint. There is a great deal of difference, however, between paints in regard to working qualities.

Hand-mixed and Ordinary Prepared Paint, because of improper mixing and grinding, or on account of adulteration or manufacturing on a guess work formula, work improperly. They drag under the brush, work "hard," spread unevenly.

B. P. S. Paint, on account of high-grade materials used—pure lead, zinc and linseed oil—perfect formula, and thoroughness of mixing and grinding, works freely, brushing out quickly and evenly.

This very important difference—known to all painters who have used B. P. S. Paint—enables the workman to do a much finer job and do it in fully 10 per cent. less time than when using hand-mixed or other prepared paint.

As the cost of applying paint is about twice the cost of the paint itself, the argument in favor of easy-working B. P. S. is self-evident. Owing to the purity of materials used, perfect formula, and absolute accuracy and thoroughness of mixing and grinding, B. P. S. paint gives the best possible results in easy-working qualities, covering and spreading capacity, fine finish and durability.
